

INSECT REMOVER

Insect remover is a very effective agent for removing residues of insect from windows, headlights, mirrors and car bumpers, i.e. those elements of cars and motorcycles which are the most exposed to this kind of dirt. It removes even the most stubborn insect dirt and tree sap stains. Thanks to its innovative composition, it is also suitable for cleaning rims and removing dirt left by brake pads.

PRODUCT FOR PROFESSIONAL USE!**PRODUCT COLOUR**

Green.

SUBSTRATE

- ✓ Elements made of plastic, i.e. bumpers, rear-view mirror housing.
- ✓ Glass.
- ✓ Coated metal elements.

ATTENTION! The product may corrode metals.**WAY OF USE**

The product is ready to use and it does not require dilution.

Spray the surface with the liquid and leave for 1-2 minutes. After this time, the product should be thoroughly rinsed with a stream of water under pressure. Remove more stubborn dirt with a sponge or a soft brush.

ATTENTION! Do not let the preparation dry on the cleaned surface. Do not apply the product on very hot and sunny surfaces. When using the product, use the personal protective equipment listed in the MSDS.

CONTENT OF VOLATILE ORGANIC COMPOUNDS

Max. VOC content: 44 g/l (20°C)
